Cannabinoids in Clinical Practice Conference

- Jointly organized by the Canadian Consortium for the Investigation of Cannabinoids and the Canadian Pain Society

Accreditation: Royal College of Physicians and Surgeons of Canada – Section 1

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by Continuing Professional Development, Temerty Faculty of Medicine, University of Toronto. You may claim up to a maximum of 4.5 hours (credits are automatically calculated).

Family Physicians who have actively participated in accredited Royal College of Physicians and Surgeons of Canada Section 1 and/or Section 3 activities are eligible to earn up to a maximum of 50 certified credits per five-year cycle; any additional credits are eligible as non-certified credits.

CPS ASM attendees can register directly [from our website](#) or the CCIC website [here](#)

This initiative will present the science of the endocannabinoid system, risks, efficacy, and how to approach cannabinoids as an option in patient care, as well as have educated discussions with patients about the known impacts of cannabis use on health and disease.

Learning Objectives:

- Build on your existing understanding of cannabinoids in clinical practice by integrating all the latest updates on the endocannabinoid system, medical and non-medical cannabinoids, and public health and policy issues related to cannabis/cannabinoids.
- Describe Canadian cannabinoid research initiatives.
- Distinguish between actual and potential health risks and benefits of cannabinoids.
- Reflect on professional attitudes towards cannabis in clinical practice.
- Discuss areas of need for cannabinoid research, education and collaboration.

0845h	Registration & Breakfast Rooms: Les Saison and Saskatchewan
0915h	Sponsored Presentation* non accredited activity
0945h	Welcome and Introductions
1000h	Cannabis, endocannabinoids and PTSD Matthew Hill, PhD
1030h	Central actions of cannabis in neuropathic pain Tuan Trang, PhD

- 1100h **Health Break**
 Room: Saskatchewan
- 1130h **Are minor cannabinoids intoxicating? Comparing plant cannabinoids to THC in mouse models**
 Robert Laprairie, PhD
- 1200h **The interface of nociplastic pain and cannabinoid-based medicines: Do cannabinoids hold the key?**
 Mary-Ann Fitzcharles, MD, FRCP
- 1230h **Fatty acid amide hydrolase levels in social anxiety disorder: A replication PET study with the tracer [11C]CURB**
 Christina Pereira, PhD
- 1245h **Opioid-sparing effects of cannabinoids**
 Bernard Le Foll, MD, PhD, MCFPere
- 1315h **Lunch**
 Room: Saskatchewan
- 1400h **Welcome Back**
- 1400h **Poster Session** *non accredited activity
Learning activities used by a physician to enhance their awareness of new evidence, perspectives or discoveries that are potentially relevant to their professional practice, such as poster presentations, may be claimed as a scanning activity under Section 2. You may claim 0.5 credits per poster.
- 1430h **Exploring early-life trauma, current stress, and problematic cannabis use in a young adult population**
 Zachary Patterson, PhD
- 1500h **Safety of cannabinoids used for medical purposes in children: A systematic review and meta-analysis**
 Manik Chhabra, PhD
- 1515h **Clinician's Panel Discussion: Focus on Pain Conditions**
- 1600h **Closing remarks and conclusion**

The CCIC and the Canadian Pain Society has received an educational grant or in-kind support for this session from the following exhibitors:
